## Emma Moore

I am an Undergraduate at [Northeastern University](#)

*Please see [my charitable wish list](#).*  
*I hope you create a [profile page like this](#) and a [charitable wisheeeee list](#), too.*

### About Me

I am the biggest animal-lover you have ever met! That includes my dog and cat (Taco and Tofu), my horse (Edgar Allan Pony), the hummingbirds outside my mom's kitchen window, the wildlife I see when camping Yosemite, or the whales and elephants that I hope to see in person someday. This passion has shaped my studies, my weekend adventures, my philanthropy, and my career plans.

#### What People Call Me

My name is Emma, but my friends often call me, "Em."

#### What I Plan to do with My One Wild and Precious Life

After graduate school, I plan to become a climate scientist and advocate. I want to continue my research on how best to combat climate change and get better policies put into action!

#### My Academics

I'm a junior, majoring in Environmental Science with a minor in Psychology. Because climate change threatens all my animal friends (and all of us!), I am excited to be working in Dr. Henderson's lab on research into alternative energy sources.

#### My Extracurriculars

Outside of class, I am the Vice President of theWildlife and Conservation Club. When we are not out hiking and doing clean-ups, we work to spread awareness of the importance of protecting our natural environment. I'm also the Secretary of my sorority, Delta Delta Delta. As the name implies, we are all about change, and we support The Sierra Club. We are the Green Greeks! We maintain a sustainable lifestyle at our sorority house, and we promote that practice to all Greek life on campus!

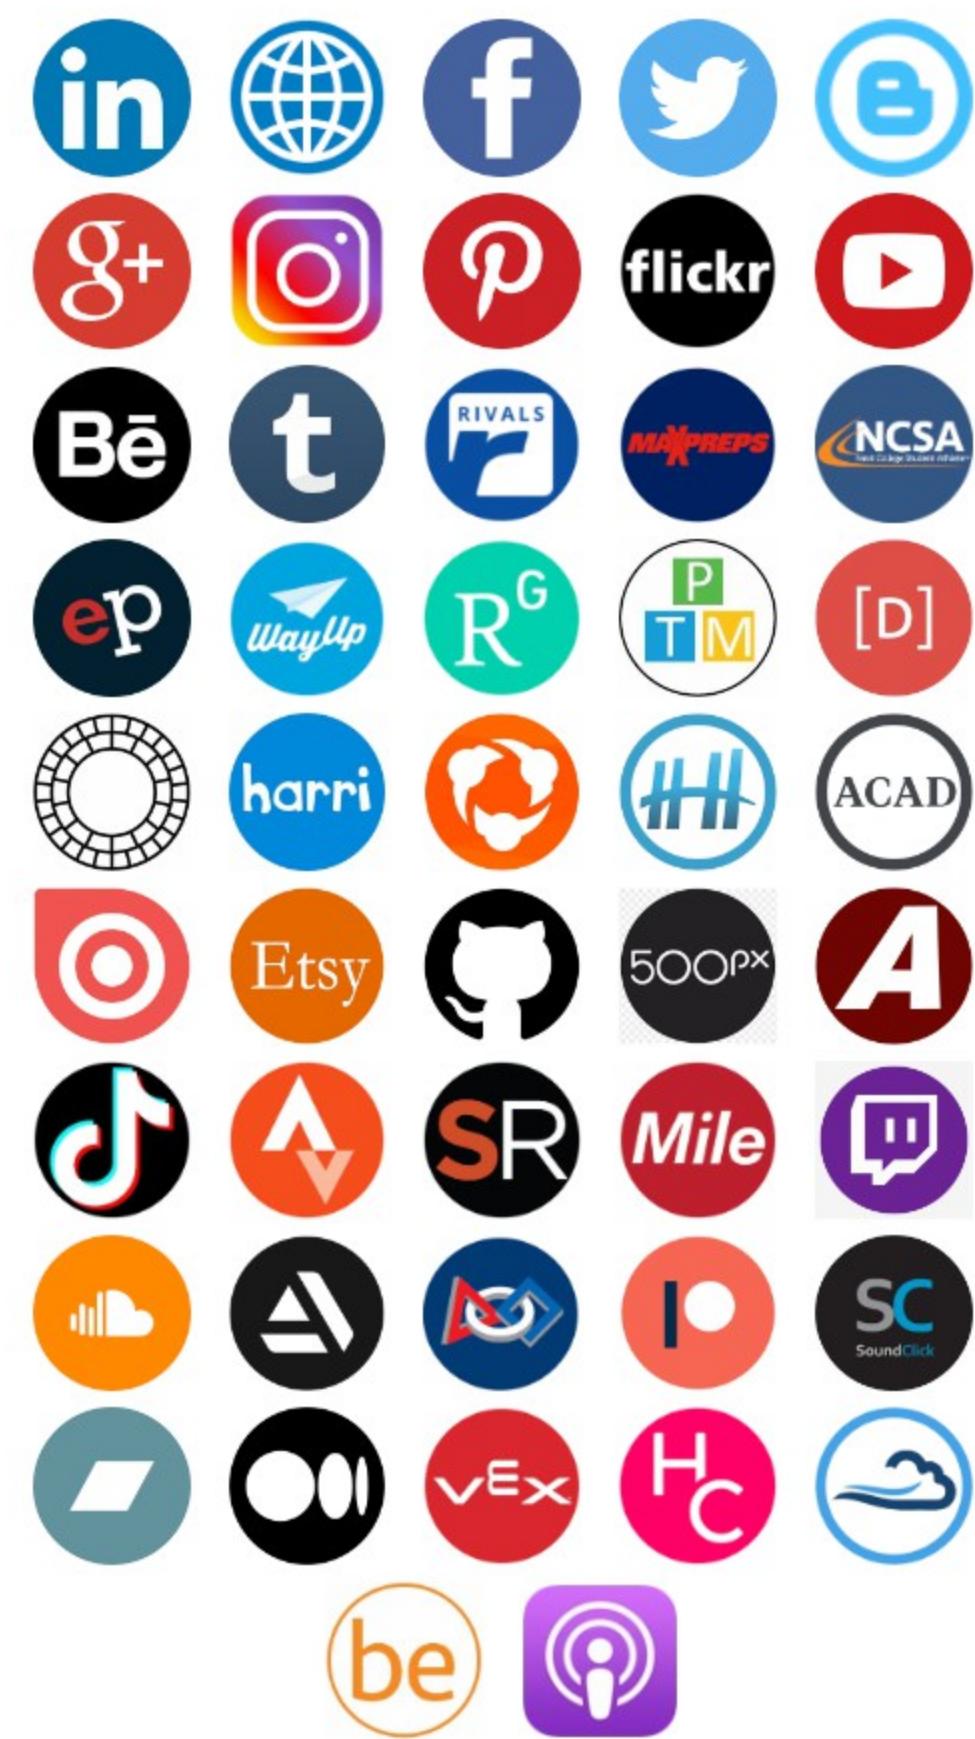

#### My Athletics

I'm the goalkeeper on an undefeated club soccer team. I've met so many amazing people, and I love the competition. I'm also the co-captain of the intramural tennis team. We hope to bring home the championship this year!

#### My Jobs and Internships

I interned at the United Nations Foundation the year before last, and I got a great internship
